S: Generally SUSCEPTIBLE; Often depends on timing and rates of application, especially for hard to kill species.

I: INTERMEDIATE; Label listed species as "suppressed" by this herbicide or higher dosages are required.

R: RELEASE; This product may be used over the top of this tree species. CAUTION must be taken to avoid injury due to rates of application or stages of development.

*Indicates pesticides currently on a list of chemicals prohibited by the Forest Stewardship Council (FSC). On FSC-certified lands (including State forests and some County Forests) in 2006 these pesticides can only be used if they were used previously. Use on FSC-certified lands after 2006 is subject to change. Use on lands not certified under FSC is permissible according to the label.
